The mission of the Inner City Shakespeare Ensemble is to bring students into the world of "Theatre" using Shakespeare's ageless language and eloquent dramatic insight into people and events.

With the support of professional mentors they are able to realize their own special talents and perform with style and substance. Founded in 2011, this innovative and unique program brought together students from George Washington High School and mentors from the British theater community and industry professionals.

In collaboration with LA County Parks and Recreation and BAFTA LA, this partnership staged productions of *Romeo and Juliet*, and *A Midsummer Night's Dream*. In 2013, The Inner City Shakespeare Ensemble was incorporated and produced *Twelfth Night* in two schools. This year the LA Unified School District asked The Ensemble to expand its program to other schools in the District, culminating in this production of *A Midsummer Night's Dream*.
